1. MARINE ACTIVITIES

1.1. Summary:

Mariners are advised that Seaway 7 will conduct pre-lay grapnel run (PLGR) and survey operations along the Inter-Array Cable routes within the East Anglia THREE Offshore Windfarm area, as defined in Section [2.1](#) of this document

During route clearance operations, all vessels are requested to maintain a minimum safe distance of 500m from the Trym at all times.

1.2. Activity Description:

Seaway 7 will be using MV Trym to conduct pre-lay grapnel runs (PLGR) and associated survey activities along the Inter-Array Cable within boundary of the East Anglia THREE Offshore Windfarm array. Operations will be conducted continuously, 24 hours a day. The work will be performed in a single campaign.

1.3. Program Schedule:

MV Trym is scheduled to mobilise from the Port of Blyth circa 18 May 2026, with the scope of work expected to be completed by 3 June 2026, subject to weather conditions.

MV Trym will monitor VHF Channel 16 and VHF DSC Channel 70 continuously throughout the operations. It is anticipated, subject to weather conditions, that works will be carried out on a continuous basis (i.e. 24 hours a day, seven days a week), unless otherwise advised.

MV Trym will have restricted manoeuvrability as defined under COLREGs (International Regulations for Preventing Collisions at Sea, 1972). They will display the appropriate day shapes and lights and will transmit an Automatic Identification System (AIS) message

Completion of the works will be notified through the cancellation of this Notice to Mariners. Weekly updates on vessel movements will be issued via the EA3 Weekly Notice of Operations
