Contents

1. Onshore Archaeology and Cultural Heritage Site Visit Photographs and Notes 3

1.1 Introduction 3

1.2 Castle Hill, motte south-west of Hallmoss Farm (SM3259) 3
1.2.1 Site visit observations 4

1.3 Ravenscraig Castle (SM2496) 4
1.3.1 Site visit observations 6

1.4 Upstanding remains of former hospital block for Longside airfield (NK04NE0054) 7
1.4.1 Site visit observations 7

Plate 1.1 Looking north-east towards Project from road north of Castle Motte (photograph location NK 10088 48975) 3
Plate 1.2 Looking west towards Project (photograph location NK 09544 48789) 4
Plate 1.3 Looking north across the River Ugie towards the Project (photograph location NK 09554 48795) 5
Plate 1.4 Looking west at the castle remains from the east (photograph location (NK 09560 48783) 6
Plate 1.5 Looking east at former hospital block relating to Royal Air Force Longside (Peterhead) airfield (photograph taken from NK 07893 46257 looking south-west) 7

1. Onshore Archaeology and Cultural Heritage Site Visit Photographs and Notes

1.1 Introduction

1.1.1.1 This Appendix presents selected photographs, with observations, from the site walkovers, which were undertaken in support of the EIA (Environmental Impact Assessment) Report. A full description of the aims, objectives and limitations of the walkover can be found in **Appendix 24.1: Onshore Archaeology and Cultural Heritage Desk Study**. The following plates and descriptions are referenced in the relevant sections of **Volume 1, Chapter 24: Onshore Archaeology and Cultural Heritage**.

1.2 Castle Hill, motte south-west of Hallmoss Farm (SM3259)

Plate 1.1 Looking north-east towards Project from road north of Castle Motte (photograph location NK 10088 48975)

1.2.1 Site visit observations

1.2.1.1 Asset was not accessible. Views to the motte were taken from the roadside both on the road running to the southeast of the motte and from the northeast of the motte. The motte is extremely prominent in the landscape and views to and from are not obscured from the onshore export cable corridor.

1.3 Ravenscraig Castle (SM2496)

Plate 1.2 Looking west towards Project (photograph location NK 09544 48789)

Plate 1.3 Looking north across the River Ugie towards the Project (photograph location NK 09554 48795)

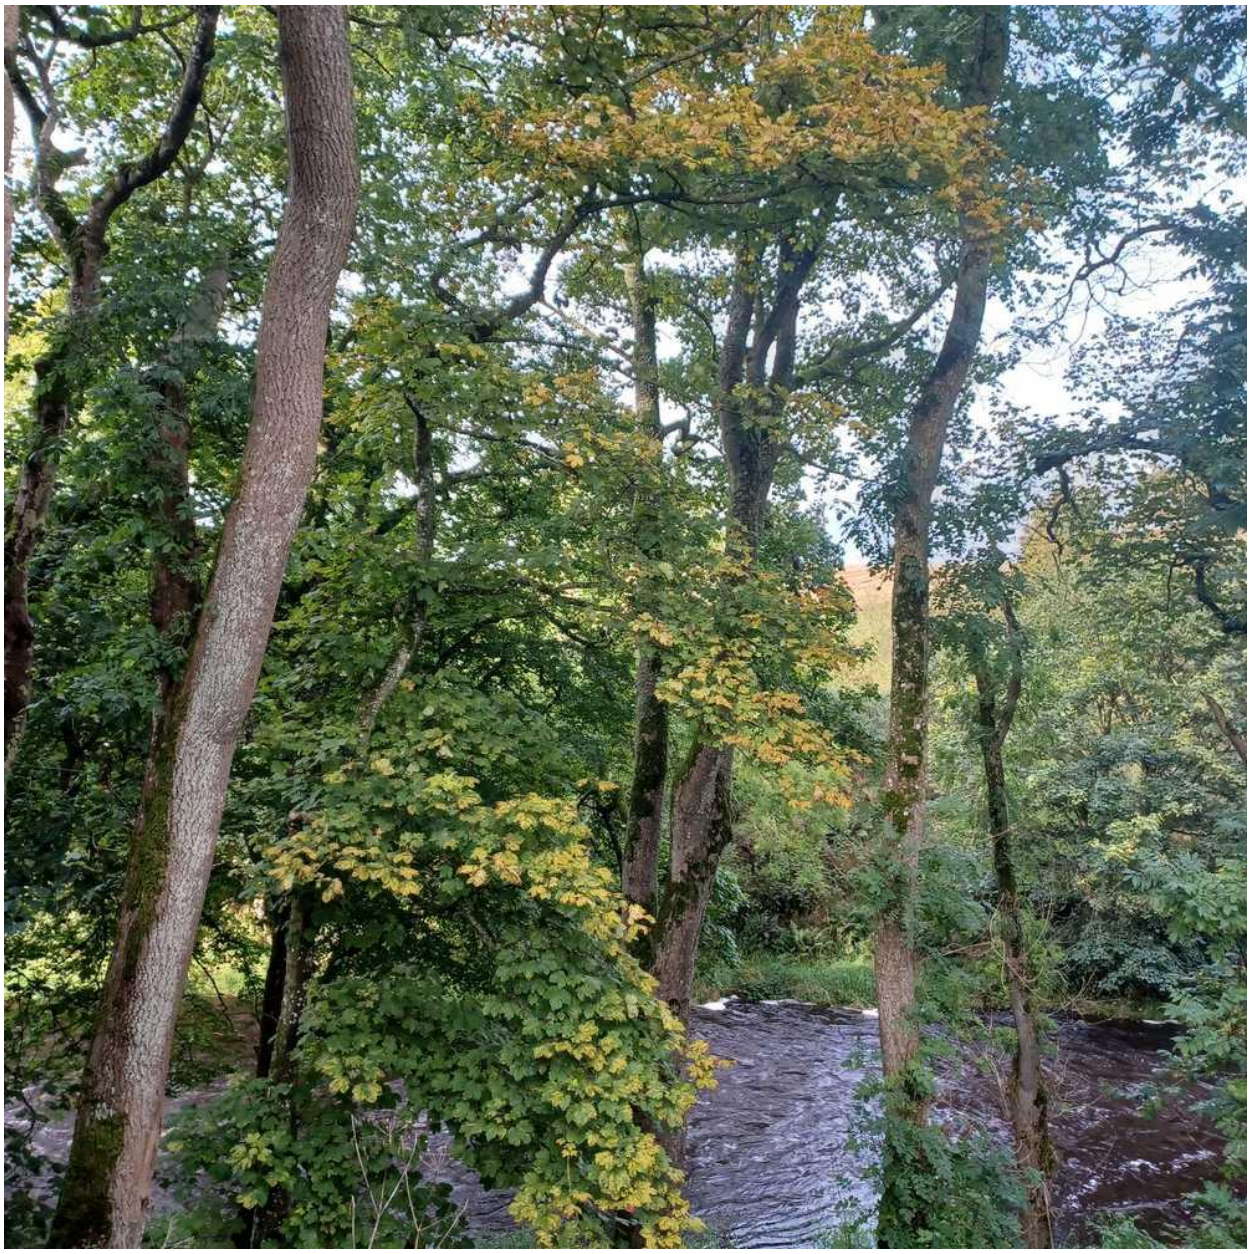

Plate 1.4 Looking west at the castle remains from the east (photograph location (NK 09560 48783)

1.3.1 Site visit observations

1.3.1.1 The heritage asset was accessible via a small public path. Castle survives to at least two stories, open in the inside. Some internal features survive. Views to north across the River Ugie and to the onshore export cable corridor are obstructed by existing mature vegetation but would likely be more visible in winter. Views to the west and northwest are also obstructed by existing mature vegetation but would likely be more visible in winter.

1.4 Upstanding remains of former hospital block for Longside airfield (NK04NE0054)

Plate 1.5 Looking east at former hospital block relating to Royal Air Force Longside (Peterhead) airfield (photograph taken from NK 07893 46257 looking south-west)

1.4.1 Site visit observations

1.4.1.1 Building in upstanding but dilapidated condition; and currently used for the storage of farm equipment.
