1. MARINE ACTIVITIES

1.1. Summary:

Mariners are advised that Rollingstone will conduct Seabed Rock Installation (SRI) at the East Anglia THREE Export Cable Corridor, in the area set out in section [2.1](#) of this document.

During the period of operations, all vessels are requested to always keep a 1.5 Nm safety distance.

1.2. Activity Description:

NKT will conduct Seabed Rock Installation (SRI) at the East Anglia 3 Export Cable Corridor using the vessel DPFPV Rollingstone. Operations will be conducted continuously, 24 hours a day. The work will be performed in a single campaign.

Rock will be placed on the export cable at remedial locations. In/out surveys will be performed prior to and following rock placement.

It is requested that all vessels maintain a minimum of 1.5Nm separation distance from Rollingstone and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working corridor

To protect the cable in the working corridor, guard vessels will be deployed along the Export Cable Route (described in *EA3 NTM 065 -2025- Export Cable Guard Vessel Deployment*) The guard vessels will contact vessels approaching within 1.5Nm

Outer Thames Estuary Special Protection Area (SPA):

As required under Deemed Marine License Condition 13(1)(c)(v) to minimize disturbance to red throated diver in the Outer Thames Estuary Special Protection Area (SPA) during construction of East Anglia THREE, these areas shall as far as practicable be avoided during transits from 01st November to 31st March.

1.3. Program Schedule:

Rollingstone is expected to mobilize circa 10/02/2026. Rollingstone will monitor VHF Channel 16 and VHF DSC Channel 70 continuously throughout the operations. It is currently anticipated that weather permitting, works will be conducted on a continuous basis (i.e., 24-hour working, seven days a week) unless notified otherwise. During operations, the Rollingstone will have restricted maneuverability as defined under COLREGs (International Regulations for Preventing Collisions at Sea, 1972). They will display the appropriate day shapes and lights and will transmit an Automatic Identification System (AIS) message. All vessels are required to monitor VHF Channel 16 and VHF DSC Channel 70 continuously throughout the operation.

1.4. Vessel Details:

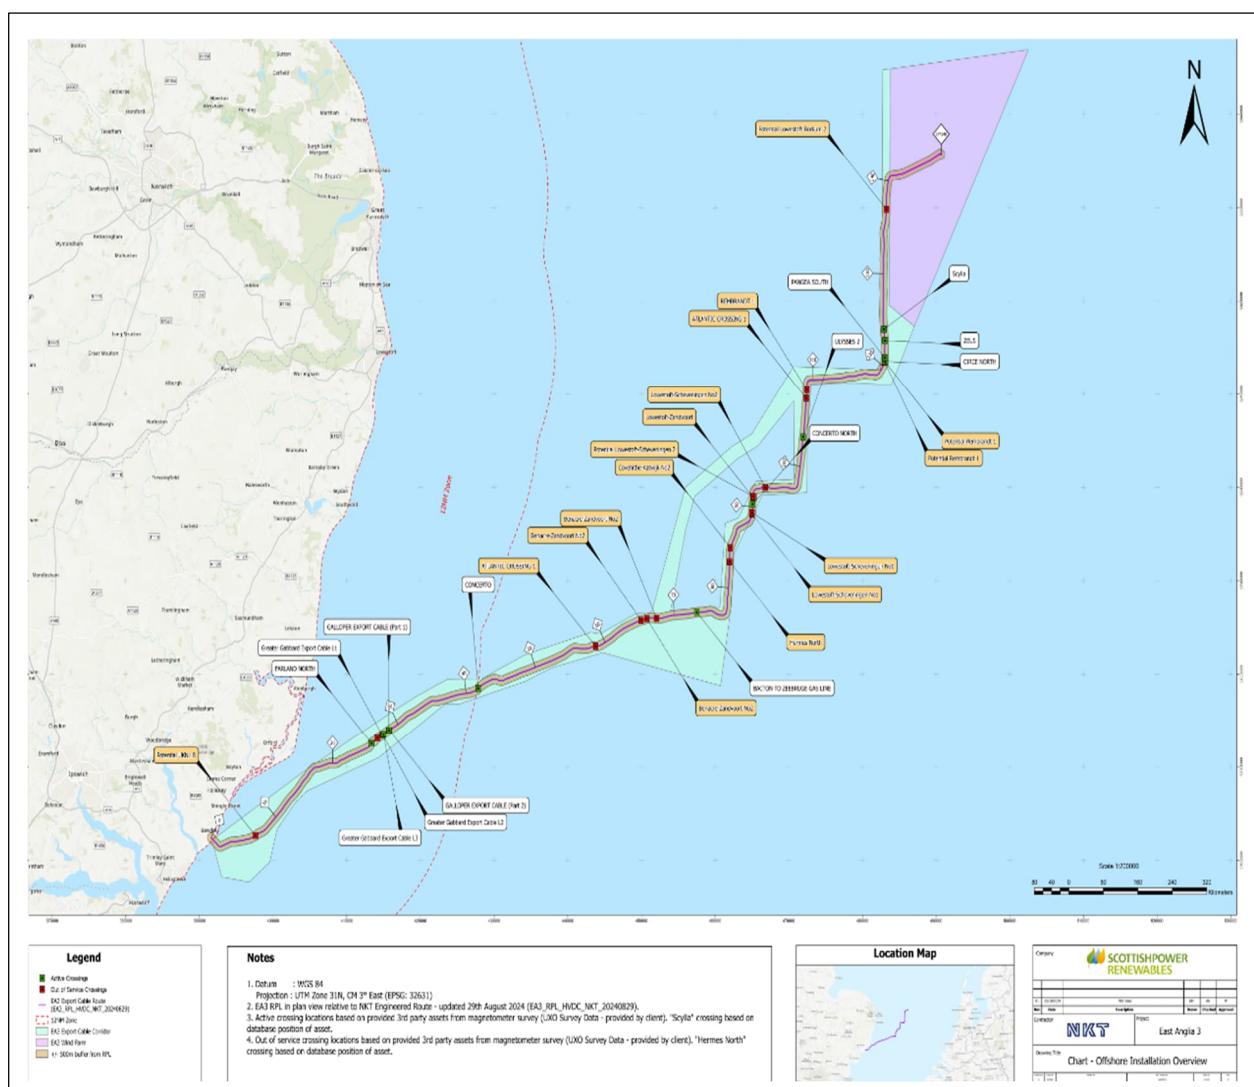

Vessel Details	
Name of vessel:	Rollingstone
Call Sign:	PHYR
MMSI No:	245746000
On Board Contact Details:	Phone: +49 421 5172191 93 5 Email: captain.rollingstone@deme-group.com
Port of operation:	Dirdal Norway (TBC)

2. ACTIVITY AREA

2.1. Offshore Activity Area:

Location	WGS84 UTM31N		Decimal Degrees		WGS84 DDD MM.MMM		KP
	Easting (m)	Northing (m)	Latitude (°N)	Longitude (°E)	Latitude (°N)	Longitude (°E)	
EA3 Export Cable Corridor	395913.57	5762140.79	52.000155	1.483774	52° 00.0092'	001° 29.026'	4.800
	396308.15	5762208.30	52.000835	1.489500	52° 00.0501'	001° 29.370'	5.200

3. PROJECT CONTACT DETAILS

The following contact can provide relevant information if required. Please note that any specific queries can be addressed to the relevant shore-based representatives.

3.1. Site Management:

Marine Coordinator	
Name	EA3 MCC
Contact Telephone Number	+44 (0) 1416144821
Email Address	ea3_mcc@scottishpower.com
Address	Herring Market, Battery Green Road, Lowestoft, Suffolk, NR32 1BZ

3.2. Emergency Contact:

Offshore Installation Manager	
Name	EA3 OIM
Contact Telephone Number	+44 (0) 7960 608 666
Email Address	ea3_oim@scottishpower.com
Address	Herring Market, Battery Green Road, Lowestoft, Suffolk, NR32 1BZ

3.3. Marine Management

Marine Management	
Name	Anthony Milligan
Contact Telephone Number	Tel +44 (0) 7760 880723
Email Address	amilligan@scottishpower.com
Address	Scottish Power HQ 320 St Vincent Street, Glasgow, G2 5AD
Scope of Work	Subsea Rock Installation

4. NOTICE TO MARINERS' DISTRIBUTION LIST

A list of recipients for the Notice to Mariners is kept by the Project Team. If you wish to be added to this list, please contact the personnel whose contact details are set out within section 3 of this Notice.
