1. MARINE ACTIVITIES

1.1. Summary:

Mariners are advised that Grand Canyon III will carry out IAC cable trenching and burial operations within the East Anglia Three Offshore Windfarm Boundary. Rix Lion and HST Poole will assist with crew transfer operations.

During Cable laying operations, all vessels are requested to keep a 500m safety distance from the Norside Supporter, Seaway Moxie, Windea Clausius & Grand Canyon III.

1.2. Activity Description:

Grand Canyon III will conduct trenching and burial operations supporting the cable-laying operation. During cable deployment, trenching & burial all vessels involved will be restricted in their ability to manoeuvre.

Seaway Moxie, Norside Supporter & Windea Clausius will undertake equipment and personnel transfers to WTGs and the OFCS via a Walk-to-Work (W2W) gangway system. While conducting these transfers, the Seaway Moxie, Norside Supporter & Windea Clausius will also be restricted in manoeuvrability.

Rix Lion & HST Poole will be the CTV support vessels providing 24hr support covering both cable installation and T&T works.

1.3. Program Schedule:

Seaway Moxie has mobilised already and are actively operating on the project since January 2026.

Windea Clausius and Grand Canyon III have mobilised already and are actively operating on the project since February 2026.

Norside supporter has mobilised already and is actively operating on the project since August 2026.

Rix Lion has mobilised already and is actively carrying out crew transfer operations.

HST Poole is expected to mobilise circa 03/10/2026

During the cable laying operations, 'Grand Canyon III' will have restricted manoeuvrability as defined under COLREGS (International Regulations for Preventing Collisions at Sea 1972.) They will display the appropriate day shapes and lights and will transmit an Automatic Identification Systems (AIS) message.

All project vessels will monitor VHF Channel 16 and VHF DSC Channel 70 continuously throughout the operation. It is currently anticipated that weather permitting, works will be carried out on a continuous basis (i.e., 24-hour working, seven days a week) unless notified otherwise.

Completion of works will be notified by closure of this notice to mariners; weekly updates of vessel movements will be notified via EA3 weekly notice of operations.
