1 Archaeology and Cultural Heritage Gazetteer

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
1	LB7545 Canmore ID 41520 WoSAS Pin 6095	234304	609026	Category B Listed Building	Manse, 63 Patna Road	The asset consists of an earlier 19 th century, two storey, asymmetrical manse that replaced the earlier one built circa 1750. It is located at the end of a long driveway leading north from Patna Road, a few hundred metres west of the church with modern houses along Dalrymple Road in between. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
2	LB7546 Canmore ID 41528 WoSAS Pin 6103	234497	608958	Category C Listed Building	Kirkgate Cottage, 81 Patna Road	The asset consists of a mid-19 th century single storey cottage located to the west of the church entrance gate at the end of Patna Road, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
3	LB7543 Canmore ID 265287	234282	608946	Category B Listed Building	Myrtle Cottage, 47 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
4	LB7542 Canmore ID 203508	234275	608944	Category B Listed Building	45 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
5	LB7541 Canmore ID 203507	234259	608940	Category B Listed Building	43 Patna Road	The asset consists of a mid-19 th century, two storey house located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
6	LB7540 Canmore ID 203506	234246	608937	Category B Listed Building	Duniquaich, 39 Patna Road	The asset consists of a mid-19 th century, two storey house located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
7	LB7566 Canmore ID 245830 WoSAS Pin 6102	234478	608937	Category C Listed Building	Kirkport Cottages, 74 Patna Road	The asset consists of a mid-19 th century, single storey cottage that was formally two dwellings. The door to the western most cottage has been removed and a modern garage extension added to the west. The cottage is located to the west of the churchyard entrance and forms an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	High
8	LB7564 Canmore ID 203513	234335	608936	Category C Listed Building	Formerly 58 Patna Road (now part of 50 Patna Road)	The asset consists of an early 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
9	LB7539 Canmore ID 203505	234236	608935	Category C Listed Building	Rose Cottage, 37 Patna Road	The asset consists of an early 19 th century, single storey cottage with two later 19 th century dormers. The cottage is located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
10	LB7565 Canmore ID 268288	234346	608935	Category C Listed Building	60 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
11	LB7536 Canmore ID 183258	234440	608934	Category B Listed Building	Old Bridge, Kirkmichael	The asset consists of a small segmental stone bridge over the Dyrock Burn in Kirkmichael, with an inscribed construction date of 1775. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
12	LB7563 Canmore ID 203513	234325	608934	Category C Listed Building	Almar, 50 Patna Road	The asset consists of an early 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
13	LB13657 Canmore ID 203514	234358	608933	Category C Listed Building	62 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
14	LB7538 Canmore ID 203504	234220	608932	Category C Listed Building	31-33 Patna Road	The asset consists of an early 19 th century, single storey cottage converted to a butchers shop in the 20 th century, located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
15	CA88	234253	608929	Conservation Area	Kirkmichael	The asset consists of the village of Kirkmichael formed by the properties on Patna Road and Burnside Row, as well as small parts of Straiton Road, and Dalrymple Road. The village originated in the 13 th century when a church was founded by John de Gemmelstoun beside the Dyrock Burn. The original church has been superseded and the current church dates to 1787, becoming the focus for the growth of the village in the early 18 th to mid-19 th century. Kirkmichael House, to the south west of the village, originates from the 16 th or 17 th century and the owners would have been the main benefactors of the church during this period. The village does not start to expand along the road to the church until the late 18 th and 19 th century. It now consists of 31 Category B and C Listed Buildings, with the church, churchyard and manse the most notable of these. The asset is of national significance as a Conservation Area containing numerous B Listed Buildings, and is therefore of a high value.	Post-Medieval	High
16	LB7562 Canmore ID 265295	234288	608925	Category C Listed Building	Old Post Office, 2 Burnside Row	The asset consists of the mid-19 th century, two storey house and former post office that used to be registered as 44 Patna Road, located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
17	LB7561 Canmore ID 265294	234279	608924	Category C Listed Building	42 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
18	LB13656 Canmore ID 265293	234267	608921	Category C Listed Building	40 Patna Road	The asset consists of an early 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
19	LB7560 Canmore ID 265292	234255	608918	Category C Listed Building	Tolverne, 38 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
20	LB13653 Canmore ID 265291	234242	608915	Category B Listed Building	36 Patna Road	The asset consists of a late 18 th or early 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
21	LB7533 Canmore ID 265290	234232	608912	Category C Listed Building	Fairholm, 34 Patna Road	The asset consists of a mid-19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
22	LB7552 Canmore ID 265289	234222	608910	Category C Listed Building	32 Patna Road	The asset consists of a late 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
23	LB7551 Canmore ID 203512	234210	608907	Category C Listed Building	30 Patna Road	The asset consists of a late 18 th or early 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
24	LB7537 Canmore ID 41525 WoSAS Pin 6100	234458	608903	Category C Listed Building	Portcheck, 3 Bolestyle Road	The asset consists of the early 19 th century house that was formerly two dwelling and now formed into one. The house was a former farmhouse on the southern bank of the Dyrock Burn, outside the main thoroughfare through Kirkmichael. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
25	LB7550 Canmore ID 229464	234174	608898	Category C Listed Building	22 Patna Road adjoining 20 Patna Road	The asset consists of an early 19 th century, single storey cottage that has been converted to a garage and belongs to the hall opposite. It adjoins to 20 Patna Road to the west and is located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
26	LB7549 Canmore ID 203511	234157	608893	Category C Listed Building	The Tower and Adjoining Building, 20 Patna Road	The asset consists of the early 19 th century, two storey house with garage to the east, located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
27	LB7548 Canmore ID 203510	234130	608886	Category B Listed Building	16 Patna Road	The asset consists of the early 19 th century, single storey cottage located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
28	LB7547 Canmore ID 203509	234107	608881	Category B Listed Building	8 Patna Road	The asset consists of the late 18 th or early 19 th century, single storey cottage with two former dwellings to the east that are now garages. It is located on the main road through Kirkmichael, forming an integral part of the Kirkmichael Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
29	LB7544 Canmore ID 203515	234095	608869	Category B Listed Building	The White House and adjoining Joiner's Shop, Kirkmichael Arms, Straiton Road	The asset consists of the one storey cottages formed by 3 and 8 Straiton Road that are now converted into a public house. The properties form a V shape junction alongside properties on Patna Road, and form an integral part of the Kirkmichael Conservation Area.	Post-Medieval	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
						The asset is of national significance as a Category B Listed Building, and is therefore of a high value.		
30	LB13654 Canmore ID 41538 WoSAS Pin 6113	234088	608440	Category B Listed Building	Kirkmichael House	The asset consists of the 18 th century mansion house that was enlarged in the 19 th century by the addition of a Baronial style keep. The central four storey high block of the house may date to the late 16 th or early 17 th centuries. The house is set within a large estate containing woodland, parkland, and a large pond. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
31	LB7554 Canmore ID 145888 WoSAS Pin 42147	234351	608428	Category B Listed Building	Gate Piers, Kirkmichael House	The asset consists of the 18 th century gatepiers at the eastern entrance to Kirkmichael House that are decorated with swags and goddess heads, but the gates have been removed. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
32	WoSAS Pin 53491	230729	608296	Ayrshire Designed Landscape	Kilhenzie	The asset consists of the designed landscape forming the Kilhenzie Castle estate, which is depicted by Roy as three large fields to the south, west and north of Kilhenzie Castle. It was noted in the late 17 th century as the main estate in the parish of Maybole for good building, gardens and orchards. The former estate is now part of a dairy farm with the Kilhenzie Castle at the centre along with a chapel and sundial within the immediate castle grounds, all surrounded by a thin line of mature woodland. A walled garden is to the south west of the castle, and there is a gate lodge at the end of the driveway to the west. A large complex of farm buildings are located to the south and south east of the castle and the former designed landscape is now arable fields with the Kilhenzie Wood to the north east corner. The asset is of regional significance as a much modified designed landscape related to a Category B Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
33	LB14305 Canmore ID 41510 WoSAS Pin 6085	230845	608238	Category B Listed Building	Kilhenzie Castle	The asset consists of a two storey, 16 th century tower with a 17 th century addition that had fallen into ruin and was restored and enlarged in the 19 th century. The tower was owned by the Baird family prior to the mid-17 th century and thereafter passed to the Kennedies. It is now used as a farmhouse for the adjacent dairy farm. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
34	WoSAS Pin 53490	233718	608230	Ayrshire Designed Landscape	Kirkmichael House	The asset consists of the designed landscape forming the Kirkmichael House estate with the area depicted by Roy 1752-55 as a house set within woodland, a pond to the immediate south and several fields set out between the Dyrock Burn and the Water of Girvan. It was said to contain gardens and an orchard and was the first in Carrick to have apricots and peaches in the late 17 th century. The estate grounds have a similar form to those from the 18 th century, but the pond has been drained slightly, and areas of woodland to the west of the pond having been removed, possibly for as part of commercial forestry. The gardens and orchard are maintained to the west of the house and the remaining area is pastoral fields. The asset is of regional significance as a modified designed landscape related to a Category B Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
35	LB7558 Canmore ID 41500 WoSAS Pin 6075	236123	608048	Category A Listed Building	Drumfad Dovecot	The asset consists of a dovecot constructed in 1762 of granite blocks. The dovecot is cylindrical in shape with a vaulted lower stage. Trees are growing out of the central hall and the building is now roofless. It is depicted on the first edition Ordnance Survey (OS) as a pigeon house to the north east of Drumfad. The asset is of national significance as a Category A Listed Building, and is therefore of a high value.	Post-Medieval	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
36	LB50618	235926	607711	Category C Listed Building	Former Garage and Store, Cloncaird Castle	The asset consists of the single storey, early 20 th century Arts and Crafts style former garages and store buildings with matching stone and roof details. They are good examples of this style of building and evidence the changing needs of estates with the invention of motorised transport in the early 20 th century. They formerly would have had a timber canopy between them and the large timber and glazed doors have been re-used in another building. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
37	LB11740 Canmore ID 41499 WoSAS Pin 6074	235938	607683	Category C Listed Building	Stable block and boundary wall, Cloncaird Castle Estate	The asset consists of a mid-19 th century, single storey stable block, laid out in a U-shape with courtyard. It probably dates to the remodelling of Cloncaird Castle in 1814 and is a good example of a Classical estate stable block. It was redeveloped into holiday accommodation in 2006. The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.	Post-Medieval	Medium
38	LB7557 Canmore ID 41496 WoSAS Pin 6071	235802	607558	Category B Listed Building	Cloncaird Castle	The asset consists of Cloncaird Castle, which stands on a precipitous slope alongside the Kelsie Burn, and was built around a 16 th century core in 1814 for Henry Ritchie of Craiton and Busbie. In 1947 the castle became a convalescent home, run by the local authority. It was returned to private residential use in the later 20 th century. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
39	SM2176 Canmore ID 40829 WoSAS Pin 5407	229871	607393	Scheduled Monument	Kildoon, fort	The asset consists of a vitrified fort situated on the eastern extent of a prominent ridge with steep natural slopes on all sides except along the west. The defences enclose a grassed, undulating, oval area of approximately 55m east to west by 25m transversely showing no trace of occupation. Around the contoured perimeter and along the inner rampart on the west side, the entirely robbed course of a wall at least 2m thick is visible. On the line of this wall, to the north east of the fort and at the southern extent of the inner rampart, much vitrified stone was revealed by probing. The three external ditched ramparts on the western extent defend the ridge-top approach, and it is from this side that the original stepped-cut access way extends around the southern slopes to a well-defined entrance flanked on both sides by the inner rampart. The less severe upper slopes of the north and eastern sides appear to have been cut back leaving a terrace effect, but much of this may be of natural or later quarry origin. The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.	Prehistoric	High
40	LB14277 Canmore ID 228398 WoSAS Pin 22621	229899	607378	Category B Listed Building	Sir Charles Fergusson's Monument, Kildoon	The asset consists of a large obelisk located on the eastern edge of the summit of Kildoon Hill, erected in 1853 in memory of Sir Charles Ferguson, who was a lawyer and estate owner in Ayrshire. His deeds in originating the Ayrshire Educational Association, and building many schools and churches at his own expense, led to his former tenants raising the monument to him after his death. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High
41	LB7559 Canmore ID 203640, 240827, 240828, 240830,	232649	606501	Category B Listed Building	15-81 Dalhowan Street, Crosshill	The asset consists of an almost continuous range of 3-bay, early 19 th century weaver's cottages lining the west side of Dalhowan Street, Crosshill. Most of the row are single storey cottages and they add significantly to the streetscape and character of the village and are remarkable for their relatively unaltered rooflines and window openings. The cottages form the core of the Crosshill Conservation Area. The asset is of national significance as a Category B Listed Building, and is therefore of a high value.	Post-Medieval	High

	240832, 240833, 240835, 240837, 240838, 240840- 240844, 240855, 240856, 240879- 240881, 240884, 240886, 240890, 240895, 240898, 240899, 240900, 240902- 240904, 240907- 240909 WoSAS Pin 22588							
42	CA84	232604	606489	Conservation Area	Crosshill Village	<p>The asset consists of the village of Crosshill focussing around the main streets and central cross shaped junction in the village centre with Dalhowan Street running south, King Street running north, and elements of Dalry Road, Newton Street, and Kirkmichael Street to the east and west. The village was first settled by Irish immigrants who were employed in the hand-loom weaving industry.</p> <p>The asset is of national significance as a Conservation Area containing numerous B Listed Buildings, and is therefore of a high value.</p>	Post-Medieval	High
43	GDL00063	236452	606128	Inventory Garden and Designed Landscape	Blairquhan	<p>The asset consists of the designed landscape and gardens of Blairquhan, which is made up of an attractive parkland and woodland, first laid out in the 17th century and later remodelled. It forms an attractive setting for Blairquhan House and also contains an interesting collection of trees. The policies of Blairquhan were laid out by the Whytefoord family between 1623 and 1750 but were remodelled to the present form by David Hunter Blair in the first half of the 19th century to the design seen in the OS map of 1850. His successors have continued to develop the estate within this framework.</p> <p>Between 1803-14 the layout of the policies were redesigned including the diversion of the river as part of the design, with early plans by Thomas White Snr discounted, and nearly half a million trees planted. A new house was commissioned to the designs of William Burn in 1820 and works on the grounds continued with</p>	Post-Medieval	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
						<p>an arboretum planted in the late 19th century and the current owner continuing in this tradition of renovation and planting.</p> <p>The Garden and Designed Landscape incorporate the Listed Buildings of Blairquhan House, stables, and kennels, alongside the bridges within the estate and Colonel Hunter Blair's monument. At the north west corner of the policies, the estate has been extended in recent years to include the walled garden and additional policy land of Cloncaird Castle. The boundary of the designed landscape in this area is defined by the boundary of the woodlands on either side of the drive.</p> <p>The asset is of national significance due to its inclusion within the Inventory of Gardens and Designed Landscapes, and is therefore of a high value.</p>		
44	LB50005	233795	606034	Category C Listed Building	Parkfairn	<p>The asset consists of the late 18th century, two storey villa that has been later remodelled in the 19th century with 20th century additions. The single storey ancillary wings were likely a stables and byre. It was originally part of the Kilbride estate and has a garden to the immediate north west.</p> <p>The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.</p>	Post-Medieval	Medium
45	Canmore ID 42582 WoSAS Pin 7140	242150	605550	Undesignated Asset of Regional Significance	Gass Building, Enclosure and Huts	<p>The asset consists of a sub-rectangular building divided into two compartments measuring 18.6m by 7.5m, and a rectangular enclosure adjoins the building to the north measuring 9.5m by 7.5m. To the north east there are remains of three huts.</p> <p>The asset is of regional significance as a collection of structures of unknown origin that may or may not be contemporary, and is therefore of a medium value.</p>	Prehistoric/Post Medieval	Medium
46	LB19094 Canmore ID 41501 WoSAS Pin 6076	236531	605468	Category A Listed Building	Blairquhan House	<p>The asset consists of a mansion house built by Sir David Hunter Blair in 1842, designed in the Tudor style by William Burn. Some lintels and sculptured stones from the earlier fortified building which stood on the site are incorporated in the kitchen courtyard.</p> <p>The asset is of national significance as a Category A Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
47	LB7556 Canmore ID 229431	234463	605452	Category B Listed Building	Longhill	<p>The asset consists of an early 19th century, two storey house constructed in a short T-shaped plan with gardens to the north and driveway from the east. It has been extended to the north at its western side and farm buildings are to the north west.</p> <p>The asset is of national significance as a Category B Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
48	SM4390 Canmore ID 42556 WoSAS Pin 7114	246217	605440	Scheduled Monument	Dalnean Hill farmstead and field system	<p>The asset consists of the remains of a Medieval or later settlement and field system situated on Dalnean Hill. The settlement remains consist of the stone footings of two parallel rectangular buildings, each divided into three rooms, and each measuring over 18m in length and up to 4m in width. The remains of a drain running out of the end wall of one of the buildings indicates that the end compartment had been used as a byre. A rectangular enclosure, possibly a kailyard or garden plot, is attached to the south-western building. To the north west of the two buildings is a small outbuilding, and to the north, on the other side of a small burn and sited on a break in slope, is a kiln-barn. There are extensive remains of turf banks and rig and furrow over the hillside, particularly on the upper slopes of the hill to the west and south west of the buildings. The settlement of 'Dalnean' is recorded on maps from 1650 onwards, but appears to have been deserted by the mid-19th century.</p> <p>The settlement is a well-preserved example of a Medieval or later settlement and field system which has the potential to considerably increase our understanding of domestic life and agricultural practices in medieval or later times.</p> <p>The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.</p>	Medieval	High

54	CA92 WoSAS Pin 22793	238201	604903	Conservation Area	Straiton	<p>The asset consists of the village of Straiton, that was laid out by Thomas, Earl of Cassillis in 1760, and later rebuilt in 1900. It contains a number of 18th century buildings including the Black Bull Inn (1766), Traboyack (1795), and most notably the parish church, which was rebuilt in 1785 using remains of the early 13th century church. It is noted as one of the most picturesque villages in Ayrshire, if not Scotland due to the layout of the main street and the surrounding landscape.</p> <p>The church is the earliest part of the village, with Roy depicting a few other buildings to the north and south, but mainly fields surrounding, and the manse to the east.</p> <p>The asset is of national significance as a Conservation Area containing the Category A Listed Straiton Parish Church and numerous Category B Listed Buildings, and is therefore of a high value.</p>	Post-Medieval	High
55	LB19093 Canmore ID 219844	238148	604890	Category B Listed Building	Black Bull Hotel, Main Street	<p>The asset consists of the Black Bull Hotel, located on the Main Street within the Straiton Conservation Area. The inn dates to 1766 and consists of a long one storey range that connects to later buildings to the east, forming an integral part of the Straiton Conservation Area.</p> <p>The asset is of national significance as a Category B Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
56	LB19092 Canmore ID 219843, 265473, 265475, 265476, 265481- 265483, 265485	238202	604859	Category C Listed Building	1-19 Main Street	<p>The asset consists of a range of single storey dwellings likely dating to the early 20th century, lining the south side of Main Street, Straiton. These properties form an integral part of the Straiton Conservation Area.</p> <p>The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.</p>	Post-Medieval	Medium
57	WoSAS Pin 53487	233904	604764	Ayrshire Designed Landscape	Kirkbride House	<p>The asset consists of the designed landscape formed around Kirkbride House in the late 19th century, in a previously unoccupied area to the east of Balsaggart farm and mill. The designed landscape is first depicted on the OS second edition, constructed within an area of woodland, consisting of the main house, a small steading, stables and walled garden with the former woodland and fields to the south maintained.</p> <p>The asset is of regional significance as a modified designed landscape related to a late 19th century country house, and is therefore of a medium value.</p>	Post-Medieval	Medium
58	LB19090 Canmore ID 219842	238413	604752	Category B Listed Building	Traboyack House	<p>The asset consists of the former manse at the far eastern edge of Straiton Village, constructed in 1795, comprising a two-storey house set at the end of a long driveway at the eastern end of Main Street.</p> <p>The asset is of national significance as a Category B Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
59	Canmore ID 40871 WoSAS ID 5449	228605	604445	Undesignated Asset of Regional Significance	Glenshalloch Wood Farmstead	<p>The asset consists of a farmstead depicted as ruinous on the first edition OS map comprising a long house divided into three compartments, aligned north to south and forming the eastern edge of an enclosure. It is not annotated on any maps prior to the late 19th century nor depicted by Roy in the 18th century. The enclosure is still visible on aerial photography but the building is not so may only survive as sub-surface remains.</p> <p>The asset is of regional significance as a late 19th century farmstead with upstanding remains, and is therefore of a medium value.</p>	Post-Medieval	Medium

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value

60	Canmore ID 42604 WoSAS Pin 7162	246265	604325	Undesignated Asset of National Significance	Wee Cairn Hill Cairn	<p>The asset consists of a large cairn measuring 23m diameter by 0.9m in height, located on the summit of Wee Cairn Hill. It comprises a mound of greatly disturbed turf covered stone near the centre of the Craigengillan Garden and Designed Landscape.</p> <p>The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.</p>	Prehistoric	High
61	GDL00111	246391	604198	Inventory Garden and Designed Landscape	Craigengillan	<p>The asset consists of a rare example of a complete and unfragmented estate landscape, started in the 16th century and held by one family (McAdam) for almost 400 years. The designed landscape dates from the late 18th/early 19th century and includes a Category A listed mansion house, stables, formal gardens, a walled garden, and a Japanese water garden, added in the early 20th century, incorporating Pulhamite rockwork, rockeries and waterfalls. Garden buildings and notable drystone walling, extensive policy woodland, a rocky gorge and industrial archaeological remnants are also elements of the designed landscape.</p> <p>The continuity of ownership and stewardship by the McAdam family over 400 years and the achievements of John Loudon McAdam in particular, together with its more ancient history and archaeological sites, give Craigengillan outstanding Historical value.</p> <p>The asset is of national significance due to its inclusion within the Inventory of Gardens and Designed Landscapes, and is therefore of a high value.</p>	Post-Medieval	High
62	LB19104 Canmore ID 219857	239155	603948	Category B Listed Building	Colonel Hunter Blair's Monument	<p>The asset consists of a stone obelisk on Highgate Hill commemorating Colonel James Hunter Blair, who was a member of parliament representing the area, and who died during the Battle of Inkerman in 1854. The obelisk is very tall and is set on a plinth and a four stepped base.</p> <p>The asset is of national significance as a Category B Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
63	SM5200 Canmore ID 42630 WoSAS Pin 7188	243761	603611	Scheduled Monument	Munteoch settlement and field systems	<p>The asset consists of the remains of the farmstead of Munteoch, which comprised at least two phases of homestead with associated outbuildings, agricultural enclosures and several phase of cultivation remains. The north-west enclosure is 185m by 100m, including a house, stock pens and cultivation rigs. To the east of this there is a second stone-walled house with associated yard and kiln. An extensive field system lies to the west of this group. The complex is bounded by a head dyke, 2m wide and 1m in height, running for a total of c.700m. The farmstead is of national importance as a well-preserved settlement of the Post-Medieval period, with several phases of use. It contains a variety of structural features and cultivation remains which have the potential to elucidate the development of the settlement and its associated land-use over a lengthy period.</p> <p>The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.</p>	Post-Medieval	High
64	Canmore ID 40869 WoSAS Pin 5447	228500	603565	Undesignated Asset of National Significance	Captain's Bridge Earthwork	<p>The asset consists of an earthwork, possibly of medieval date, situated on a steep-sided promontory immediately north west of Captain's Bridge. It consists of a bank (up to 7.4m thick and 1.5m high) with an external ditch (up to 6.7m broad and 0.9m deep) drawn across the neck of the promontory to cut off an area measuring 19m by a maximum of 17m.</p> <p>The asset is of national significance as an example of a potentially rare Medieval defended settlement, and is therefore of a high value.</p>	Medieval	High
65	Canmore ID 40875 WoSAS Pin 5453	225930	603140	Undesignated Asset of National Significance	Quarrel Hill Farmstead	<p>The asset consists of the remains of at least three buildings and associated enclosures, probably relics of an 18th century farm. The site is on a level tract of ground on the south side of Quarrel Hill overlooking the Girvan Water. The three structures average 16m by 5m overall, and are each subdivided by a wall. The smaller of the compartments thus formed appears to have been the habitable part, averaging 6m by 5m, and the larger was probably a byre. The walls are 0.6m thick and vary from 1m to 3m in height. The walls of other buildings and enclosures, now turf-covered, average 1m in height; the enclosure walls are bounded by outer ditches. The foundations of a solitary building to the north east show it as having an apsidal south</p>	Post-Medieval	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
						<p>west end and an enclosure or courtyard on the north west. A grass-covered, metalled roadway with side ditches and a culvert leads through the centre of the site from the north. The farmstead comprising four unroofed buildings, one of which has two compartments, and four enclosures is depicted on the first edition OS map (Ayrshire 1859, sheet li) and five enclosures, one of which is incomplete, are shown on the current edition of the OS 1:10000 map (1987).</p> <p>The asset is of national significance as a good example of a potentially abandoned Post-Medieval settlement, and is therefore of a high value.</p>		
66	LB1114 Canmore ID 41576 WoSAS Pin 6150	230464	603051	Category A Listed Building	Kilkerran House	<p>The asset consists of the mansion house within the Kilkerran estate, the core of which dates from the turn of the 18th century. Later classical enlargements were made to the designs of William Adam in the 19th century, with other changes made in 1818, 1855, and 1873. The changes to the house have re-orientated it to face south and it is three storeys in height.</p> <p>The asset is of national significance as a Category A Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
67	GDL00238	230511	603044	Inventory Garden and Designed Landscape	Kilkerran	<p>The asset consists of the designed landscape surrounding Kilkerran House, that has remained similar in layout since the improvements undertaken in c.1814 from map evidence. It is known that a tower house was standing on the site of the present house by the 14th century and the estate at that time was divided and the tower house which forms the nucleus of the present Kilkerran was then known as Barclanachan and was the home of a branch of the Kennedys. Kilkerran tower house lay two miles away and Fergus Fergusson obtained a charter confirming him in the lands at Kilkerran from Robert the Bruce who reigned between 1306-29. It remained the home of the Fergusson's until 1650, when their estates were sequestered by Cromwell. Though the estate was later restored to the Fergusons, the family were deeply in debt through their support of the Royalist cause. In 1700 Sir Alexander Fergusson yielded Kilkerran and the family titles to his cousin John Fergusson who had acquired Barclanachan in 1684 through his marriage with Jean Whytefoord, whose father had purchased it from the Kennedys. He joined the two estates and transferred the name Kilkerran to Barclanachan rebuilding the house and incorporating the old tower.</p> <p>As early as 1711 tree planting commenced and by 1715 there was also a programme of hill planting. In 1729 further improvements were made to the house and grounds and the mansion was virtually rebuilt as a large, symmetrical elongated H-plan house with giant pilasters on the north front, to the designs of James Smith. Plans from this period show elaborate formal designs but reference to General Roy's map of 1750 would suggest that if either had been implemented it had been changed by 1750. Roy's map shows the house with the main road to the north, but further south than it is today, and with drives in avenues diagonally to the house from the north west and the north east. There is a compound to the south of the house, where the offices were later situated, and a block of hill planting further south. The only remaining feature which today corresponds to either of those plans is the great diagonal lime avenue to the south east of the house which is absent on the Roy plan but appears on the first edition OS map.</p> <p>Large schemes of alterations were made to the house and grounds in the late 18th and early 19th century by James Gillespie Graham, who was the founder of the Ayrshire Agricultural Association. The Toddy Burn immediately to the west of the house was covered over and many park trees were planted. In 1814 John Hay submitted a design for a walled garden. The sunken garden was made during the mid-19th century and the west front lawn levelled with the spoil. This grandiose and expensive interpretation was to cost the gardener his job on Sir James' return. Further improvements were made to Kilkerran in 1873-6 designed by Brown and Wardrop, when principally the south front was altered so as to enlarge the dining room, and new stables were built further away from the house, and many of the specimen conifer trees and parkland trees were planted at this time.</p> <p>The asset is of national significance due to its inclusion within the Inventory of Gardens and Designed Landscapes, and is therefore of a high value.</p>	Post-Medieval	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
68	Canmore ID 41564 WoSAS Pin 6139	239580	602905	Undesignated Asset of Regional Significance	Mote of the Doonan's Dun	<p>The asset supposedly consists of a possible Dun situated on the Mote of Doonan's comprising a roughly oval, heather-clad summit measuring 19.8m east to west by 7.6m and bears at the west end a fragment, 0.2m high, of an earth and stone rampart. Around the south arc, about 1.2m below the oval summit there is a stony scarp 1.8m high which forms an artificial terrace up to 2.7m broad on the side of the knoll; a sheep-rub at the base of the scarp reveals that it is composed of a mass of tumbled masonry from a substantial wall. On the north west, a terrace 3.4m broad is cut into the slope at the foot of the knoll.</p> <p>The terrace is clearly not agricultural in origin and the most likely explanation is that it represents the quarried bed for the rampart of a small earthwork in which case an interruption visible in the centre of the terrace on the east may mark the position of an entrance.</p> <p>The asset is of regional significance as a disputed Prehistoric settlement, and is therefore of a medium value.</p>	Prehistoric	Medium
69	WoSAS Pin 53485	226972	602833	Ayrshire Designed Landscape	Dalquharran (Castle)	<p>The asset consists of the 15th century tower house, with 17th century additions, depicted by Blaeu with an impaled, wooded park on the north bank of Water of Girvan. Mitchell notes a 17th century description of Dalquharran as 'surrounded with vast enclosures of wood'. Roy shows a plantation and tree-lined enclosures to the west of the old castle, and an avenue running northwards to Old Place of Dalwharn, with semi-natural wood and cultivation rigs to the east. Armstrong depicts enclosures and policy planting, prior to building of the new mansion in 1785, to designs by Robert Adam. The Old Statistical Accounts mentions 127 acres of plantation 'chiefly made by the present proprietor'. Thereafter, the first edition OS map shows riverside fields and extensive plantations to the north of the Water of Girvan. In the 20th century the mansion house is unroofed but is still Category A Listed, and there has been felling of large parts of the policy woodland and some coniferous replanting. The site is currently subject of a major hotel and golf course development proposal, which would see lodges built within the policies.</p> <p>The asset is of potential national significance as a modified designed landscape that retains the core of the original designed parkland related to a Medieval estate and also containing two further assets of national significance, and is therefore of a high value.</p>	Post-Medieval	High
70	Canmore ID 41560 WoSAS Pin 6135	239425	602780	Undesignated Asset of Regional Significance	Doonan's Hill Fort	<p>The asset supposedly consists of a hill fort located on Doonan's Hill, comprising an area measuring 105m by 43m with a single rampart and an entrance on the east. It was previously described as having three ramparts and additional horn work but this was disputed by the OS.</p> <p>The asset is of regional significance as a disputed Prehistoric settlement, and is therefore of a medium value.</p>	Prehistoric	Medium
71	Canmore ID 42637 WoSAS Pin 7195	241285	602770	Undesignated Asset of National Significance	Baing Loch Chambered Cairn	<p>The asset consists of a large robbed cairn, the stone of which has been used to build adjacent sheep rees. The cairn is 22m in diameter and 2m in maximum height near the centre where a large pile of stones rises approximately 1m above the rest of the cairn, which has been hollowed out. All that is visible of the chamber are two massive side-slabs (set 1m apart along a north west to south east axis), which protrude through the surface of the cairn immediately south east of the centre. There are also traces of a small compartment within the body of the cairn on the north west.</p> <p>The asset is of national significance as an example of an upstanding but disturbed Prehistoric burial monument, and is therefore of a high value.</p>	Prehistoric	High
72	LB1144 Canmore ID 40877 WoSAS Pin 5455	226508	602358	Category C Listed Building	Lochmodie Cottages	<p>The asset consists of a row of one storey cottages on the north side of the B741, to the east of Lochmodie Bridge and comprising two to three dwellings.</p> <p>The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.</p>	Post-Medieval	Medium

		Easting	Northing					
73	Canmore ID 42641 WoSAS Pin 7199	240250	602350	Undesignated Asset of Regional Significance	Baing Homestead	The asset consists of a possible oval homestead, situated on a low knoll which forms the south bank of the Chapel Burn. Around the summit there is a stony scarp 1m high, within which there are traces of a robber trench enclosing an area measuring about 12.4m by 11.5m. The asset is of regional significance as a house of unknown origin, and is therefore of a medium value.	Medieval/Post-Medieval	Medium
74	LB125 Canmore ID 40880, 291214 WoSAS Pin 5458	227055	602161	Category A Listed Building	Dalquharran Castle	The asset consists of a castle style mansion house designed by Robert Adams and constructed circa 1790, comprising a round tower and central stair, with wings added in 1881. A long, low stable range lies to the north west, connected to the main building by screen walls and gateways. The castle is now in ruins. The asset is of national significance as a Category A Listed Building, and is therefore of a high value.	Post-Medieval	High
75	SM316 Canmore ID 40887 WoSAS Pin 5464	227234	601874	Scheduled Monument	Dalquharran Castle (Old Castle)	The asset consists of the remains of the old castle of Dalquharran, surviving as substantial standing structures and as buried archaeology, together with an area enclosing the outer defences and infrastructure. The old castle stands on the north bank of the Water of Girvan, c.300m south east of the late 18 th century castellated mansion (also called Dalquharran Castle), designed by Robert Adam. The old castle occupied a strong position, guarded by the Water of Girvan, marshlands, and a former moat. Originally a rectangular keep, the old castle was greatly enlarged and converted into a "stately castle" in about 1679. The first recorded laird was Gilbert Kennedy, as recorded in 1474 in a charter of Crossraguel Abbey, following which the property was acquired by the Kennedys of Girvan Mains. Towards the end of the 17 th century, Sir Thomas Kennedy of Kirkhill, Lord Provost of Edinburgh, purchased the estate. The 15th century keep, from its plan and careful detailing, is an exceptional example of a castellated house. It was laid out on a rectangular plan comprising three storeys and an attic, probably with an external stair giving entrance to the great hall at first floor level. This floor was probably divided in two, with a private chamber at the east end giving access to the south east corner tower. This chamber contains an ornate aumbry, decorated with the arms of the Kennedys. A heavy buttress at the south west corner and a rectangular stair tower at the north west appear to have been secondary additions. The original castle measures 18m by 9m with walls almost 2m thick. The garret storey within the parapet walk is now lost. The ground floor is vaulted. The large extension which transformed the north front has a pediment dated 1679, while a window lintel is dated 1677. This wing measures about 16.6m in length by 7m in width, with a projecting round tower at the north east angle, and a square tower in the re-entrant angle, articulated with both the old keep and with the new work. This new wing contained a kitchen and storage in the basement, with a large drawing-room on the first floor with bedrooms above. The north and west were enclosed by a barmkin wall, the central north part of which features the remarkable remains of an ornate 17 th century gateway, linked to the 18 th century mansion by a tree-lined avenue. There are indications that the grounds were laid out with gardens, bowling greens, and other ornamental devices of the period. A scarp to the west of the main tower may represent the line of an enclosing moat, mentioned by MacGibbon and Ross. The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.	Medieval	High
76	Canmore ID 256749 WoSAS Pin 5445	226850	601830	Undesignated Asset of National Significance	Dalquharran Colliery Cropmarks	The asset consists of cropmarks of what is probably a curvilinear ditched settlement, immediately above and to the east of the B741 road between Dailly and Lochmodie Bridge. Only a small part of the circuit of the ditch is visible, but the area enclosed by the ditch measures at least 25m north west and south east by at least 20m transversely. The entrance lies on the north east and cropmarks indicate a gap of about 4m.	Prehistoric	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
						<p>The ditch widens towards the entrance on both sides. There are cropmarks immediately to the north of the site suggesting a further smaller enclosure with rounded corners.</p> <p>The asset is of national significance as the cropmarks have been interpreted as a complex of Prehistoric settlement features, and is therefore of a high value.</p>		
77	LB1140 Canmore ID 201320	227241	601712	Category B Listed Building	Dailly Parish Manse	<p>The asset consists of a large L-plan, two storey manse located within its own grounds to the north east of Dailly. The building is a major example of an early 19th century classical style house which remains largely intact to the exterior and interior. The manse was built in 1801 to serve the later 18th century parish church, and was added to in 1818.</p> <p>The asset is of national significance as a Category B Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
78	Canmore ID 41551 WoSAS Pin 6126	238295	601645	Undesignated Asset of Regional Significance	Dalmorton Clearance Cairns	<p>The asset consists of an oval, grass covered mound of stones measuring 13m by 8m by 1.4m located to the north east of the Water of Girvan. It was noted in the 19th century as 'a place of great consequence and solemnity' and where a baron court was held by Sir James Cunninghame, former owner of the barony of Dalmorton.</p> <p>The asset is of national significance as a possible Prehistoric burial monument re-used in a later period as a local court and meeting place, and is therefore of a high value.</p>	Prehistoric	Medium
79	LB1139 Canmore ID 40863, 265145 WoSAS Pin 5441, 51979.	227051	601604	Category B Listed Building	Dailly Parish Church and Churchyard	<p>The asset consists of the 1766 parish church and churchyard of Dailly, with the church fronting onto Linfern Road and the burial ground behind. It likely replaced an earlier church on the site depicted by Roy's map from earlier in the 18th century.</p> <p>The asset is of national significance as a Category B Listed Building, and is therefore of a high value.</p>	Post-Medieval	High
80	LB1141 Canmore ID 202484, 265176, 265177.	227025	601593	Category C Listed Building	Greenhead Hotel (45 Main Street) and 41 & 43 Main Street	<p>The asset consists of row of two-storey Gothic style houses and hotel facing the square just off Main Street, Dailly. The building was likely constructed in the early 19th century.</p> <p>The asset is of regional significance as a Category C Listed Building, and is therefore of a medium value.</p>	Post-Medieval	Medium
81	Canmore ID 75424 WoSAS Pin 12753	233155	601425	Undesignated Asset of National Significance	Wee Knockinculloch Hut Circle	<p>The asset consists of a low annular, earthen mound, 3.5m in diameter, within a bank 1.75m wide. It has an entrance to the west and is interpreted as a hut-circle. An associated bank runs northwards from the hut-circle for a distance of 4m.</p> <p>The asset is of national significance as a partially upstanding Prehistoric settlement, and is therefore of a high value.</p>	Prehistoric	High
82	LB6705 Canmore ID 40886 WoSAS Pin 5463	226083	601181	Category B Listed Building	Brunston Castle	<p>The asset consists of the remains of a T-plan mansion on the north bank of the Girvan Water. The style is that of the 17th century and there was an encircling wall with an entrance gateway, the pillars of which alone remain. The building is almost completely ruinous and the walls of the projecting wing on the south east are 2m high, while only the foundations (0.3m high) of the north west angle of the addition on the south west remain. Part of a barrel-vault also survives. A courtyard wall probably existed on the east side of the house, as some footings of a wall can be traced here. One of the pillars of the gateway remains to the north west.</p>	Post-Medieval	Low

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
						The asset is of local significance as an almost completely ruinous Category B Listed Building, and is therefore of a low value.		
83	Canmore ID 41556 WoSAS Pin 6131	238150	601150	Undesignated Asset of Regional Significance	Linfairm Farm Commemorative Stone	The asset consists of a commemorative stone marking the location where Thomas McHaffie (a known covenanter) was killed in 1686. The asset is of regional significance as the location of the execution of a local covenanter/martyr, and is therefore of a medium value.	Post-Medieval	Medium
84	SM7491 Canmore ID 42642 WoSAS Pin 7200	243756	601116	Scheduled Monument	Knockdon Enclosure	The asset consists of a prehistoric enclosure which is situated in rough grazing 700m north east of Knockdon Farm. The enclosure is oval in shape, consisting of a stony bank up to 1.5m high and 2.6m wide, surrounding an area approximately 16m by 14.6m internally. There is a gap in the bank on the south east, probably representing the original entrance. The enclosure probably dates to the later prehistoric period (about 2000-3000 years ago) and would not have been roofed over as a single building, but would, rather, have enclosed smaller roofed buildings. The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.	Prehistoric	High
85	Canmore ID 40872 WoSAS Pin 5450	225995	600820	Undesignated Asset of National Significance	Maxwellston Enclosure	The asset consists of a sub-oval cropmark enclosure, situated 200m south east of the Water of Girvan. The ditch is narrow but regular, broken by two opposed entrances with squared terminals. There is no trace of a bank but there are some vague internal marks, and a faint cropmark line which turns an abrupt right angle. There is a possible ring-ditch in the adjacent field to the south east. The asset is of national significance as the cropmarks have been interpreted as a complex of Prehistoric settlement features, and is therefore of a high value.	Prehistoric	High
86	Canmore ID 42638 WoSAS Pin 7196	243905	600795	Undesignated Asset of Regional Significance	Knockdon Cairn	The asset consists of a small cairn, situated on the south west spur of Knockdon Craig, measuring 6.5m diameter by 0.8m in height. A small trench had been cut into the north west side. The asset is of regional significance as a potential Prehistoric burial monument, and is therefore of a medium value.	Prehistoric	Medium
87	GDL00047	225042	600778	Inventory Garden and Designed Landscape	Bargany	The asset consists of an outstanding designed landscape laid out by W.S. Gilpin from 1826, forming a spectacular setting for the Category A Listed Bargany House and making a major contribution to the local scenery. Bargany has been associated with the Hamilton's of Bargany for more than 350 years, but the castle was owned by the Kennedy Family in the 16 th and early 17 th centuries. In 1631 Thomas Kennedy sold the Estate to Sir John Hamilton of Letterick, the illegitimate son of the 1 st Marquis of Hamilton, who founded the family of the Hamilton's of Bargany. The 2 nd Lord Bargany, built the present house using materials from the Castle which stood on the banks of the River Girvan below the house and of which no trace now remains. The 4th Lord died without issue in 1736 and the Estate passed to John Dalrymple, great grandson of the 2nd Lord Bargany, who assumed the name Hamilton. He carried out some alterations to the house and commissioned William Adam, William Bouchart and George Robertson to remodel the grounds. George Robertson prepared an improvement plan for the policies in 1774, then the 4th Baronet of North Berwick and Bargany carried out many alterations to the house and built the walled garden in the course of a series of improvements involving W.S. Gilpin and Thomas White Jnr, which shaped the policies to the form which substantially now remains. The asset is of national significance due to its inclusion within the Inventory of Gardens and Designed Landscapes, and is therefore of a high value.	Post-Medieval	High
88	Canmore ID 41553	237000	600600	Undesignated Asset of National Significance	Knockoner Burn Farmstead	The asset consists of the remains of the farmstead of Knockoner (recorded on Thomson's Map) comprising two rectangular buildings (28.5m by 4.8m and 12m by 5m respectively over turf-covered wall-footings) adjacent to an area of rig-and-furrow cultivation enclosed by a stony bank; there are further traces of field-	Medieval	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
	WoSAS Pin 6128					banks and rig-and-furrow cultivation to the south west. Pont's map depicts the farmstead of 'Knockonnry' at what appears to be this location. The asset is of national significance as the potential remains of a rare Medieval farmstead, and is therefore of a high value.		
89	SM3357 Canmore ID 41573 WoSAS Pin 6147	234264	600518	Scheduled Monument	Knockinculloch Enclosures	The asset consists of a large enclosure containing eight or nine smaller enclosures, situated on the south east of Knockinculloch, to the north of the Palmullan Burn. It is clearly of considerable antiquity, but cannot with confidence be assigned to any particular prehistoric or medieval date. The main enclosure is sub-rectangular on plan and measures 125m by 95m within an earthen bank (1m wide and 0.4m high); its NE side is open. In its interior are eight, or possibly nine, P-shaped enclosures which measure about 26m in length over low banks (0.4m high and 0.9m wide). All the features share the same north west to south east orientation and a short stretch of bank is attached to the foot of each 'P' and springs to the east. The complex was first noted by Christison in 1892 and has changed little since. Its function is enigmatic, but it is more likely to relate to the penning of animals than to human settlement. The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.	Medieval	High
90	Canmore ID 75425 WoSAS Pin 12754	231995	600355	Undesignated Asset of National Significance	The Pilot/Blair House Platform	The asset consists of a semi-circular cut into the upper hillside (c. 340m above Ordnance Datum (AOD)) on the western spur of The Pilot, measuring 18m wide and 7m deep. It has been recorded as a probable house-platform with a small apron of level ground extending beyond the mouth of the arc. The asset is of national significance as an example of a Prehistoric settlement, and is therefore of a high value.	Prehistoric	High
91	LB1171 Canmore ID 40895 WoSAS Pin 5472	224389	600245	Category A Listed Building	Bargany House	The asset consists of the two-storey U-shaped Bargany house constructed circa 1681 with additions in the 19 th century. It may post-date an earlier house somewhere else within the estate. The asset is of national significance as a Category A Listed Building, and is therefore of a high value.	Post-Medieval	High
92	Canmore ID 63053 WoSAS Pin 11669	236335	599755	Undesignated Asset of National Significance	Knockoner Cairn	The asset consists of a low stony mound, which is situated within a sheepfold on the south side of the area of moorland known as Knockoner. It may be a robbed cairn and it measures about 16m in diameter by 0.5m in height. Immediately north west of the centre there is a recumbent slab measuring 2.4m by 1.6m and at least 0.5m in thickness. The asset is of national significance as an example of a Prehistoric burial monument, and is therefore of a high value.	Prehistoric	High
93	N/A	236065	599271	Undesignated Asset	Fell Sheep Ree	The asset consists of a cross-shaped section of drystone walling that is depicted and annotated on the 1 st edition OS map as a Sheep Ree. It is currently located within a clearing at the edge of a riding, measuring 24 m by 24 m surviving to 1.2 m in height in places and 0.7 m wide. The asset is of local significance as a Post-Medieval agricultural structure, and is therefore of low value.	Post-Medieval	Low
94	SM2201 Canmore ID 62566 WoSAS Pin 11563	225960	598969	Scheduled Monument	Maxwellston Hill Fort	The asset consists of a fort situated on Maxwellston Hill, the westernmost summit of Hadyard Hill. On the north west it is strongly protected by steep slopes, and elsewhere by two eccentric ramparts (up to 4.5m thick and 0.7m high), each accompanied by an external ditch. The interior measures 87m by 62m and there are entrances on the west and north east respectively. The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.	Prehistoric	High

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
95	N/A	235951	598840	Undesignated Asset	Linfairn to Burnside Footpath	The asset consists of a former footpath depicted on the first edition OS map that connects to the main north to south road at Burnside farm and follows Dalquhairn Burn into the hills of Garleffin Fell and connecting to the road to Linfairn farm. Several sheep rees are situated along the route indicating it may have been a drove road. The path has been disturbed in places by the commercial forestry activity and mainly follows a riding through the majority of the area. The path is unlikely to have been formed of stone or any hard standing material. The asset is of local importance as a road used for Post-Medieval agricultural activity, and is therefore of a low value.	Post-Medieval	Low
96	Canmore ID 62568 WoSAS Pin 11565	228550	598650	Undesignated Asset of National Significance	Delamford Huts	The asset consists of the remains of five hut circles, located on a spur at the head of an unnamed burn. A further four lie 100m to the north west, in the bend of the public road to Delamford and 150m to the north west on the north west side of the road, there are two more. The asset is of national significance as an example of a Prehistoric settlement with upstanding remains, and is therefore of a high value.	Prehistoric	High
97	N/A	237169	598512	Undesignated Asset	Linfairn Loch Wall (1)	The asset consists of a short section of drystone wall measuring approximately 20m in length and surviving up to 1.1m in height and 0.75m wide. It is located on the north east side of the forestry track that likely truncated it from the remainder of the wall to the south west. An Iron post is located at the north eastern end of the wall. The asset is of local significance as a former Post-Medieval field division, and is therefore of a low value.	Post-Medieval	Negligible
98	Canmore ID 62583 WoSAS Pin 11580	225650	598450	Undesignated Asset of Regional Significance	Hughes Knolls, Little Lane Cairn	The asset consists of a probable cairn, measuring 7.5m in diameter by 0.4m in height, situated on the western spur of Hughes Knolls. The asset is of regional significance as a potential Prehistoric burial monument, and is therefore of a medium value.	Prehistoric	Medium
99	N/A	237531	598404	Undesignated Asset	Stob Hill Sheep Ree	The asset consists of a small enclosure or sheep ree that is depicted on the first edition OS map as a T-Shaped pair of walls. The enclosure now survives as a square 4.5m wide on the immediate southern edge of the forestry track. It is in very ruined condition with walls mainly 0.5m in height and the odd section up to 0.9m. A possible entrance faces north and the interior and entrance area contain large trees. The asset is of local significance as an example of a Post-Medieval agricultural structure, and is therefore of low value.	Post-Medieval	Low
100	N/A	237042	598364	Undesignated Asset	Linfairn Loch Wall (2)	The asset consists of a section of drystone wall aligned north east to south west from the edge of Linfairn Loch to the south west and truncated by a modern borrow pit to the north east. Likely would have connected to remainder of wall on the other side of the forestry track. The asset is of local significance as a former Post-Medieval field division, and is therefore of a low value.	Post-Medieval	Negligible
101	Canmore ID 6257 WoSAS Pin 11571	227550	598250	Undesignated Asset of National Significance	Pheelie Farmstead, Rig and Kiln	The asset consists of the remains of a farmstead comprising a rectangular building, a roughly D-shaped enclosure and a kiln 60m to the south east. The building, which lies immediately outside the enclosure is divided into two compartments and measures 22.9m by 3.4m within stone wall-footings. The enclosure measures 25.5m by 14.5m within a bank up to 2.9m thick and 0.6m high. Around the farmstead there are extensive traces of rig-and-furrow cultivation. The asset is of national significance as a potentially rare Medieval farming and industrial site, and is therefore of a high value.	Medieval	High
102	N/A	238111	597919	Undesignated Asset	Stob Hill Walls	The asset consists of a series of walls running along the eastern slopes of Stob Hill with a perpendicular section running west towards Linfairn Loch. They are truncated in places by forestry activity but survive to approximately 1.1m in height in places.	Post-Medieval	Negligible

Heritage Asset No.	Ref Number	National Grid Ref		Designation	Site Name	Description	Period	Value
		Easting	Northing					
						The asset is of local significance as a former Post-Medieval field division, and is therefore of a low value.		
103	Canmore ID 62581 WoSAS Pin 11578	229320	597550	Undesignated Asset of National Significance	Milton Burn Cairn	The asset consists of a prominent mound, which is situated in the forestry plantation at the head of the Milton Burn. It measures about 10m in diameter by 1.5m in height, and is surrounded by a stony terrace up to 4m broad and 0.5m high. Despite the forestry activity the platform is still visible and quantities of stone have been exposed which suggest that this is a Wessex bell-type cairn. The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.	Prehistoric	High
104	N/A	238535	597194	Undesignated Asset	Stinchar Ford Wall	The asset consists of a small section of wall aligned east to west, truncated by a forestry track at its western end otherwise maps show that it should continue beyond the ford but no sign of it remains. The wall is approximately 0.7m high in places and surrounded by commercial forestry. The asset is of local significance as a former Post-Medieval field division, and is therefore of a low value.	Post-Medieval	Negligible
105	Canmore ID 71407 WoSAS Pin 12033	231750	596650	Undesignated Asset of National Significance	Daljedburgh Hill Huts	The asset consists of the remains of at least five huts or pens on the summit of Daljedburgh Hill. A further two huts lie about 50m to the north east. The asset is of national significance as an example of a Prehistoric settlement with upstanding remains, and is therefore of a high value.	Prehistoric	High
106	Canmore ID 62605 WoSAS Pin 11602	224750	596550	Undesignated Asset of National Significance	Balcletchie Cairn	The asset consists of a cairn measuring about 16.5m in diameter and 0.6m in height on a low hill 380m north west of Balcletchie farmhouse. The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.	Prehistoric	High
107	WoSAS Pin 53517	224815	596139	Ayrshire Designed Landscape	Balcletchie	The asset consists of a possible designed landscape from the late 18 th or early 19 th century formed around the farmstead or house at Balcletchie. Roy's map from the mid-18 th century depicts rig and furrow cultivation around a group of buildings, but Armstrong shows a house with associated park and planting, and the first Edition OS also shows small tree-lined parks around the house, though later maps show only a single block of planting to the north. Aerial images show that few of the designed landscape elements survive with modern farm buildings constructed and the farm surrounded by a windfarm. The asset is of regional significance as a much modified designed landscape, and is therefore of a low value.	Post-Medieval	Low
108	Canmore ID 71382 WoSAS Pin 12021	232030	596065	Undesignated Asset of National Significance	Dalquhairn Cairn	The asset consists of a heavily quarried cairn, measuring 33m in diameter by a maximum of 1.1m in height, occupying a low rise to the south west of Dalquhairn Farmhouse. The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.	Prehistoric	High
109	Canmore ID 71385 WoSAS Pin 12023	230600	595520	Undesignated Asset of National Significance	Knockeen Cairn	The asset consists of a circular, turf-covered probable cairn of small stones 20m in diameter, set on a slope which gives height of 0.9m on the upper side and 1.7m on the lower. A small hollow in the centre suggests that it has been excavated. There appears to be a slight bank on the north east perimeter but this impression could be caused by robbing of the interior. The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.	Prehistoric	High
110	Canmore ID 71387 WoSAS Pin 12024	233135	595250	Undesignated Asset of National Significance	Pinvalley Dun/Cairn	The asset consists of a possible dun consisting of the flat oval top, 15m and 10m, of a natural mound whose height varies from 2m on the west and 4m on the east. A few large stones lie scattered half-way down the western slope, and erosion has exposed the rampart on the north west. It is also possible this is a cairn, now reduced to an oval mound of stones measuring 20m by 18m and a maximum of 0.6m in height.	Prehistoric	High

						The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.		
111	Canmore ID 62571 WoSAS Pin 11568	227775	595075	Undesignated Asset of National Significance	Glengennet Farmstead and Kiln	The asset consists of the former farmstead of Glengennet comprising the remains of two rectangular buildings and a probable kiln. The larger building is divided into three compartments and measures 26m by 4.8m within mortared stone walls. In 1856 it was described as 'a small thatched farm-steading, one storey, and in good repair', although its associated buildings were ruinous. By 1894 it had been abandoned and the name had been transferred to the farmstead of Miljoan, 1.2km to the north east. Glengennet is recorded on the maps of Pont, Roy, Armstrong and Thomson. It survives as rubble foundations within a pastoral field. The asset is of national significance as a potentially rare Medieval farming and industrial site, and is therefore of a high value.	Post-Medieval	High
112	Canmore ID 63059 WoSAS Pin 11675	233405	594835	Undesignated Asset of National Significance	Bencallen Cairn	The asset consists of an oval spread of stones measuring 25m by 15m, and it is uncertain whether these are the remains of a round cairn or a long cairn. This cairn is situated on a low knoll on the west side of the public road in Bencallen forestry plantation. The asset is of national significance as an example of a partially upstanding Prehistoric burial monument, and is therefore of a high value.	Prehistoric	High
113	Canmore ID 62635 WoSAS Pin 11632	226385	594545	Undesignated Asset of Regional Significance	Auchensoul Hill Cairn	The asset consists of a possible cairn beneath the OS triangulation station on the summit of Auchensoul Hill (314m AOD), measuring about 5m in diameter by 0.4m in height. The asset is of regional significance as a potential Prehistoric burial monument, and is therefore of a medium value.	Prehistoric	Medium
114	SM3890 Canmore ID 63062 WoSAS Pin 11678	233773	594392	Scheduled Monument	Bencallen Hill Chambered Cairn	The asset consists of the remains of a chambered cairn, surviving as an orthostatic chamber capped with large boulder slabs. The chamber is very massively built, making use of orthostatic slabs up to 1.3m in height and 1.5m in length. There are four orthostatic stones forming the chamber, the north eastern of which has collapsed inwards. The chamber is capped directly onto the side slabs using a massive angular boulder measuring 1.5m across and 1m thick; the northernmost cap stone is smaller, measuring 0.8m across. A single septal stone separates the chamber into two compartments. The chamber may have been entered from the north, though this is not certain and the original layout of the cairn is unclear. A line of very large orthostatic slabs leads away from the middle of the chamber to the east; the purpose of these is not clear. It is possible that they represent the remains of a second chamber, backing onto the main chamber described above. In such an arrangement, the two large slabs immediately to the south of this orthostatic line might represent the ruinous remains of the south side of the second chamber, or the capping lintels thereof. However, this would be an unusual arrangement, and an alternative possibility is that these large slabs are related to the facing of the facade of the cairn. The difficulty with this arrangement is that the facade would then be located midway along the length of the main chamber, an arrangement which might imply that the chamber itself was of multi-phase construction, with the southernmost slabs added later. Little remains of the cairn body, other than a small mound of rubble that surrounds the main chamber. The walling of the sheepfold overlies the chamber, forming an arc that joins the main compartment to the south. The sheepfold itself is of relatively recent date, and in places makes use of very large boulders that seem likely to have originated in the cairn. The asset is of national significance as a statutory protected Scheduled Monument, and is therefore of a high value.	Prehistoric	High
115	CA80	227606	594128	Conservation Area	Barr	The asset consists of the village of Barr on the northern side of the Water of Gregg and east of the River Stinchar and comprises the main road through the village (Stinchar Road/Changue Road) along with Glenginnet Road, Glebe Road and The Avenue. The village has its origins in the 17 th century and was focussed around the original church in the centre of the village, which was replaced in the mid-19 th century.	Post-Medieval	High
