Risk Policy for the Networks Businesses of the Iberdrola group

The *Risk Policy for the Networks Businesses of the Iberdrola group* provides the framework for the monitoring and management of risks associated the regulated activities of each country in which the Group has a presence. The *Risk Policy for the Networks Businesses of the Iberdrola group* applies to all regulated electricity and gas distribution and transmission/transport activities carried out by the Group in:

Spain

Regulated networks activities:

- a. Distribution of electricity, including the planning, development and operation and maintenance of networks.
- b. Billing and collection of usage charges for ATR customers and retailers.
- c. Reading of the meters of consumers connected to its networks.
- d. Cut-off and reconnection of customers on behalf of retail companies or on its own behalf for ATR customers.

United Kingdom

- a. Regulated activities of planning, development and operation and maintenance of electricity distribution networks.
- b. Regulated activities of planning, development and operation and maintenance of transmission networks.

United States of America

Regulated networks activities:

- a. Electricity transmission and distribution.
- b. Gas distribution and storage.
- c. Retail sale of electricity and natural gas at regulated rates.

Brazil

Regulated activities of:

- a. Regulated distribution of electricity, including the planning, construction, operation and maintenance of networks.
- b. Supply of electricity for sale at regulated rates.
- c. Planning, construction, operation and maintenance of electricity transmission networks, including lines and substations.

Risk Policy for the Renewable Energy Businesses of the Iberdrola group

The *Risk Policy for the Renewable Energy Businesses of the Iberdrola group* provides the framework for the monitoring and management of risks associated with the Group's renewable energy businesses within applicable regulations and the general guidelines set out in the *General Risk Control and Management Policy* in the various countries in which it operates:

Spain

Production and sale of energy from wind, solar and hydraulic sources.

United Kingdom

Production and sale of energy using onshore and offshore wind technology.

United States of America

Production and sale of distributed energy at wind, gas, cogeneration and other renewable energy plants.

Mexico

Production and sale of energy using onshore wind technology and solar sources.

Brazil

Production and sale of energy using onshore wind technology and from hydraulic sources.

International

Production and sale of energy using onshore wind technology in Germany and from wind and solar sources in other European countries and production of wind energy in Australia.

NOTICE. This document is a translation of a duly approved Spanish-language document, and is provided for informational purposes only. In the event of any discrepancy between the text of this translation and the text of the original Spanish-language document that this translation is intended to reflect, the text of the original Spanish-language document shall prevail.

In particular, the *Risk Policy for the Renewable Energy Businesses of the Iberdrola group* determines the need to monitor market, business (resource), credit, regulatory and political, operational, technological, environmental, social and legal, and reputational risks. Management of the market risk of the Group's renewable energy businesses in Spain, the United Kingdom, Brazil and Mexico is transferred to the liberalised businesses of these countries to be integrated into a single risk position. There will thus be comprehensive monitoring of the market risks associated with the renewable energy businesses and the liberalised business of these countries.

Risk Policy for the Liberalised Businesses of the Iberdrola group

The *Risk Policy for the Liberalised Businesses of the Iberdrola group* provides the framework for the monitoring and management of risks associated with the Group's liberalised businesses in the various countries in which it operates:

Spain

- a. Operation and production of electricity from conventional thermal, nuclear and cogeneration facilities.
- b. Wholesale purchase and sale of energy (electricity, gas and other fuel), including the power purchase agreement with Iberdrola Renovables España.
- c. Retail sale of electricity, gas and energy services, including long-term sales of electricity through PPAs.
- d. Management of the integrated renewable and thermal energy position together with coverage for sales in the Iberian Electricity Market (*Mercado Ibérico de Electricidad*) (MIBEL), which includes operational planning of electricity production, fuel supply and emission rights and the wholesale and retail sale of electricity and gas.
- e. Investments in new conventional thermal generation and cogeneration plants, as well as investments to acquire customers or investments dedicated to supplying customers with electricity.

United Kingdom

- a. Wholesale purchase and sale of energy (electricity, gas and other fuel), including the power purchase agreement with Scottish Power Renewables.
- b. Retail sale of electricity, gas and energy services.
- c. Investments to increase the portfolio of customers or strictly dedicated to the supply of electricity to customers.

Mexico

- a. Production and sale of electricity to the Federal Electricity Commission (*Comisión Federal de Electricidad*) (CFE).
- b. Production and sale of electricity and steam to private users and qualified customers.
- c. Sale into the Wholesale Electric Market of electricity produced by Iberdrola's plants and sale of electricity acquired on the Wholesale Electric Market.
- d. Sale of power by Iberdrola Renovables Mexico under the service and power purchase agreements and signed clean energy certificates.
- e. Strategic and operational planning of electricity production and fuel supply.
- f. Investments in new combined cycle or cogeneration plants.

Brazil

- a. Operation and production of electricity at the Termopernambuco plant.
- b. Sale of electricity managing the portfolio of liberalised customers.
- c. Management of the energy position of the renewable generators of the Neoenergia Group.

International

Retail sale of electricity, gas and/or energy services in Portugal, Italy, France, Germany, Ireland and the United States.

Risk Policy for the Real Estate Business

The *Risk Policy for the Real Estate Business* establishes the framework for the monitoring and management of risks affecting the business carried out by Iberdrola Inmobiliaria, in order to mitigate and reduce the risks associated with the fulfilment of its objectives. Particularly contemplated are the risks associated with activities of land management, real estate development and the lease of assets of Iberdrola Inmobiliaria in Spain and other countries.
